	•
	Library to their entry.
	 User types text into their entry.
	10. User adds tags to the entry.
	11. Their new entry is not synced because
	they didn't subscribe to Premium, bu
	they can still view the entry.
Postconditions:	In the user's journal, there will now be a new entry in the timeline.
	 On the server, there will be one more
	entry saved under the user's account
	3. On the server, there will be one more
	photo stored than before under the
	user's account.
Business Rules:	1. To enable syncing, the user must have
3.3.1.3.3.3	a Premium subscription. If they don't
	they will be prompted to subscribe.
	2. Premium is also required if more than
	one photo is added to the journal
	entry.

Notes:	The Use Case Diagram for this Document assumes that the user already has a Premium subscription linked to their account.
